Intermediate & Skilled Nursing Care

At Landmark, the focus of nursing care is the patient. Friendly and personalized treatment under the direction of the patient's own physician is given in a manner intended to meet our residents' needs for medical care, as well as to motivate them to enjoy a full spiritual, social, and recreational life.

At Landmark, the staff exercises a "whole family approach" to nursing care by educating resident families, providing individualized Care Plan meetings, and aiding with difficult decisions regarding the healthcare of their loved one. Strong family involvement is important to resident care.
